

Employers Are Asking:

What are the trends I should be watching for in my data?

Which reports are critical to use as I make plan design decisions?

The Power of Informed Decision-Making

Employers who have the right information at the right time make better plan decisions.

InnovuLens Reporting Essentials gives business owners the ability to instantly view full reports on a variety of critical metrics, in minutes.

This feature is a collection of meticulously crafted reports divided into six essential categories, available within an updated and streamlined user interface:

Consolidated Financial Reporting

Improve your client financial reporting

Point Solution Assessment

Determine necessity and measure effectiveness

Population Risk Assessment

Identify hidden risks within your plan

Human Capital Risk Management

More data = better insights

Savings Evaluations

Considerations to reduce plan expenses

Benchmarking & Transparency

Determine how your plan stacks up

Your Daily Decision-Making Companion

With Reporting Essentials, employers have access to the comprehensive reports they need to confidently make plan decisions that are in the best interest of their employees.

Concise, Clear, Quick

InnovuLens Reporting Essentials will support you in meeting your fiduciary responsibilities under CAA while creating operational efficiencies and transforming your business. Elevate decision-making and gain greater clarity when making critical decisions. Your success is our priority.
